

14th International Conference of the Charles Gide Association for the Study of Economic Thought

Organized by GREDEG, CNRS and the University of Nice-Sophia Antipolis and with the support of ISEM.
Nice, June 7-9 2012

Call for proposals

(Submission deadline **30th of January 2012**)

The 14th Charles Gide conference will be held at the University of Nice Sophia Antipolis (7-9 of June 2012).

The Conference will be organized by the GREDEG CNRS (department of research in law, economics and business administration) with the support of the ISEM (Institut Supérieur d'Économie et de Management). <http://www.gredeg.cnrs.fr/Colloques/GIDE/>

The 14th Charles Gide conference welcomes papers and proposed sessions in **all areas of the history of economic thought**.

The Conference will also host a special theme: « **History of macroeconomics: from the years of « High Theory » (1926-1939) to modern approaches** »

In the context of the current economic crisis, macroeconomists have great incentives to investigate the founding contributions of macroeconomics as an autonomous field of research. The aim of this conference is to question the nature of those investigations and to analyze how macroeconomics has evolved. Proposals for communications on the conference theme might fall within one or several of the following topics:

1. Modeling Expectations
2. Financial instability, deflation and debt policy
3. Business cycles theories, cyclical growth analyses
4. The finance-growth nexus
5. Theories of economic growth
6. Accelerator – multiplier models (debates, microeconomic foundations...)
7. Corridor of stability and macroeconomic policies
8. Disequilibrium theories
9. Monetary theories and policies

10. Keynes and Keynesianism
11. Economic theories and policies

Plenary addresses on the theme of the conference will be given by Kevin Hoover (Duke University), Pascal Bridel (Lausanne University) and Rodolphe Dos Santos Ferreira (Strasbourg University).

A thematic issue will be published at the *Cahiers d'Economie Politique*: a specific call for papers is available on the websites of the conference (<http://www.gredeg.cnrs.fr/Colloques/GIDE/>), of the Charles Gide Association for the Study of Economic Thought and of *Cahiers d'économie politique*.
